## FOSCARINI

### Birdie Suspension Light by Foscarini

The Birdie suspension light is a different version of the [Foscarini Birdie ceiling light](#), as it comes with cables, allowing you to adjust the height when assembling the light to the ceiling. The suspension uses the same iconic lampshade design seen in the whole [Foscarini Birdie collection](#). Taking inspiration from a tree, the rods that hold the shades act as twigs, branching off a tree's trunk.

The Birdie suspension lamp is available in a grey or white finish, 2 colours that can easily fit into any existing interior design. The suspension light comes either with 6 or 9 shades, useful for many spaces. You can use as a main light in kitchens, lounges, dining areas or you can use in spaces with high ceilings in multiple to create an extravagant and chic decoration. Do not miss out on this contemporary and timeless chandelier which will impress all that see it.

Designer: Ludovica & Roberto Palomba
