Artemide

Itka Table by Artemide

A lamp with a high impact designed, stripped to the very essential bits. Naoto Fukasawa, the designer, is characterised for following the "Outline" way of thinking. It is a process where he tries to find the perfect balance between objects, people and environment. The opaline glass diffuser allows for a uniformly diffused, warm light without any shade areas.

The Itka table lamp is available in three sizes, Itka 20, Itka 35 and Itka 50. Explore the [Itka collection](#) with more table, suspension and wall/ceiling lights.

Designer: Naoto Fukasawa

IP Code: 20

Dimming: Non dimmable.
