PRODUCT DESCRIPTION

Designer: Greta M. Grossman

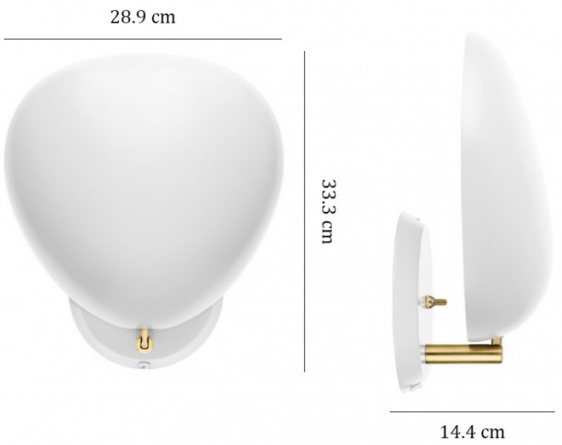

Cobra Wall Lamp by Gubi

Designed by Greta M. Grossman in the 1950s, the Cobra Wall Lamp is an iconic light that combines simplicity and elegance. Part of the celebrated Cobra collection, this wall light takes its name from the cobra-like shape of its shade. With a 360-degree adjustable shade and a flexible arm, this lamp provides tailored lighting for entrances, hallways, and even bedside use. The soft-edged form and powder-coated steel construction bring a modern aesthetic to any interior, creating a chic and timeless look.

Perfect as a standalone piece or paired in multiples for symmetry, the Cobra Wall Lamp offers versatile lighting that enhances both domestic and commercial spaces. Available in a range of finishes to suit your design needs.
