### PRODUCT DESCRIPTION

**Designer:** Ernesto Gismondi

### Artemide Niki Wall / Ceiling Light

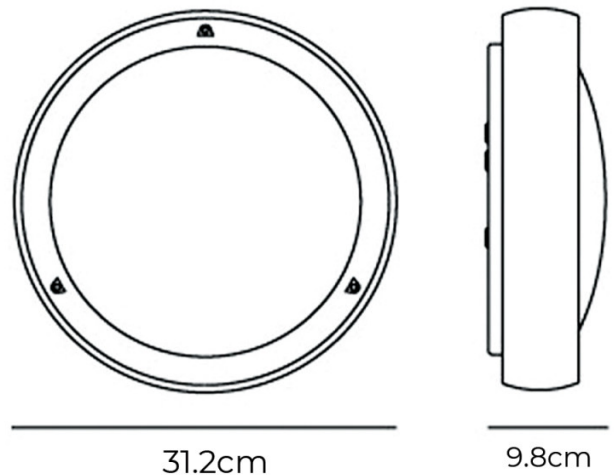

The Artemide Niki Ceiling and Wall Light was designed by Ernesto Gismondi and combines modern and traditional elements. Niki utilises a spherical silhouette crafted from steel, with a prism glass diffuser, resulting in a sleek design which can easily complement any space, either residential or commercial. This glass diffuser also filters the inner light source, resulting in a functional, glare-free glow that is evenly dispersed into your space.

This lighting solution carries a protection rating of IP65, allowing it to be fitted in bathrooms and exterior settings. A marvellous addition to your garden, patio, driveway, porch and walkway. Artemide Niki allows the choice between a satinised or glossy aluminium finish, both adding a sophisticated aesthetic to your environment, but with slightly different personalities.
