PRODUCT DESCRIPTION

Designer: Samuel Wilkinson

Decode Vessel Pendant

Influenced by the original Limited Edition Series, the Vessel pendant and table light compliment the traditional Edison style Filament bulb.

Inspired by the idea of a ship in a bottle, the light bulb sits within a blown glass shade. When illuminated the glass tint mutes the light without hiding the bulb's shape and produces unexpected dramatic reflections that appear holographic.

Please note, all Vessel Small pendants are now available with a black cable as standard. If you would prefer a white cable, please contact us for more information and pricing.
PRODUCT SPECIFICATION
