Marset Scotch Club Pendant Light

Scotch Club collection takes its inspiration from a revolving disco ball with internal faces reflecting light in all directions, whilst showcasing its unique shape. The traditional production process of these ceramic lights is meticulous, the forms are kiln-fired four times and coated with specially made glazes to incorporate warm, high-quality materials.

Marset Scotch Club was designed by designer Xavier Mañosa and master ceramicist Mashallah. Each Scotch Club pendant features a multifaceted ceramic shade with an enamel interior in either a white or gold finish. The braided textile electrical cable and matching ceramic ceiling rose are included. Available in three sizes and six colours to choose from.

Scotch Club pendant is ideal to be displayed in multiples because of the variety of sizes and enough colours to suit a variety of interior styles. The sleek form of this design lends itself to kitchen & dining rooms, providing a good level of light directly below but remaining highly decorative.

Marset Scotch Club collection also features a [wall light](#) and [ceiling flush light](#).
