a-emotional light Coral Seaurchin Pendant

PRODUCT DESCRIPTION

Designer: Arturo Alvarez

a-emotional light Coral Seaurchin

The Coral Seaurchin by a-emotional light is designed by Spanish designer Arturo Alvarez. The Seaurchin makes up part of **The Coral Collection**, which is inspired by the beauty of the coral reef. Each pendant is handmade using SIMETECH®, a stainless steel and silicone mesh. SIMETCH® allows normally resistant steel to become malleable, so it can be folded, moulded, and cut into shapes that are durable yet look organic.

The Coral Seaurchin can be installed individually or in multiples, and is ideal for creating ambient lighting both in the home or in larger commercial spaces such as bars and hotels. The Seaurchin has an opening in the bottom so provides both an overall glow and as well as direct illumination, making it perfect to hang above surfaces such as a kitchen island or dining room table.

Also available in beige, grey, and taupe or as an LED version. Please contact us for further information.
