PRODUCT DESCRIPTION

Designer: Arturo Alvarez

a-emotional light Coral Galaxea

The Coral Galaxea is an organic and natural-looking shade from a-emotional light that is inspired by the beauty of the coral reef. Spanish designer Arturo Alvarez created this pendant using SIMETECH®, a silicone and steel mesh that creates a durable yet organic-looking shade. SIMETECH® has also been designed to facilitate maintenance as it is easy to keep clean.

The Coral Galaxea is part of **The Coral Collection** by a-emotional lights and is designed to be installed individually or as clusters with other pendants from the collection. Their different forms and elegant lines result in a stunning addition to the home. The shade offers a soft, diffused glow which adds ambient lighting to any space, and the downward lighting makes these pendants ideal for hanging above surfaces such as kitchen islands or dining room tables.

Also available in beige, grey, and taupe or as an LED version. Please contact us for further information.
