PRODUCT DESCRIPTION

Designer: Arturo Alvarez

a-emotional light Coral Sea Suspension

Designed by Arturo Alvarez, the Coral Sea is an organic-looking pendant which is inspired by the Coral Reef. The shade is manufactured using SIMETECH®, a silicone and steel mesh created by Alvarez. SIMETECH® allows typically resistant steel to become malleable, so it can be folded, moulded, and cut into a natural-looking structure. The shade diffuses light from the lamp, creating a warm glow around the pendant.

The Coral Sea is part of **The Coral Collection** of pendants. Their design make them perfect to hang individually or as multiples with other shapes and sizes from the collection to create a striking feature in any domestic or commercial space. Within the home, the Coral Sea is a beautiful feature piece that creates ambient light in the kitchen or living room.

Also available in beige, grey, and taupe or as an LED version. Please contact us for further information.
