PRODUCT DESCRIPTION

Designer: Martín Azúa

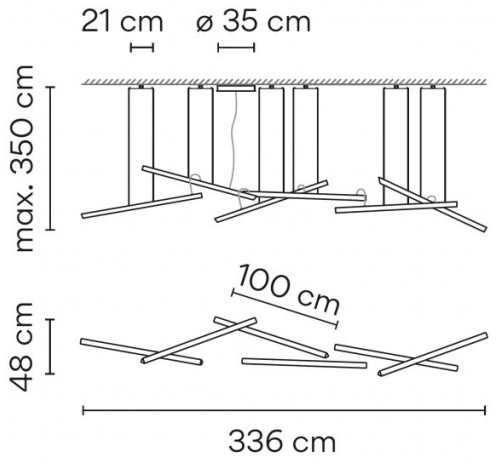

Vibia Halo 2342 Lineal LED Suspension Light

The Halo 2342 Lineal pendant light interprets the classic linear suspension with a geometric and dynamic design by Martín Azúa. Each shade hangs purposefully and gracefully, made from PMMA to shine brightly and diffuse the integrated LED light source. What results is an evenly-spread and efficient glow that also appears ethereal in look.

The pattern of the Halo Lineal 2342 pendant produces a magnificent aesthetic and effective illumination, perfect for use as a main light in many settings. The pendant lamp can also be used alongside other lights from the Vibia Halo collection for a sensational light installation that looks comfortable in even the biggest of spaces. Use in homes, offices, hospitality venues, projects and more for a contemporary light solution.
