Davide Groppi LED Is More Pendant

LED Is More Pendant was designed by Davide Groppi in 2011. This minimalistic pendant is a tribute to Mies van der Rohe and his Less is More aphorism. Mies Van Der Rohe is one of the most influential architects and designers of the 20th century, known for his role in the development of the most enduring architectural style of the era: modernism. The LED Is More project represents a light icon with a peculiar awareness of energy savings and the quality of light.

The LED Is More Pendant is a classic masterpiece of form and function, blending style and practicality to offer a truly versatile lighting solution for any space. This pendant can be hung independently or in a cluster above a kitchen or dining table for a striking ensemble. LED Is More Pendant uses LED technology which is ideal for both commercial and residential settings.
