PRODUCT DESCRIPTION

Designer: Omar Carraglia

Davide Groppi Sol 2 LED Wall Light

Davide Groppi Sol 2 LED Wall Light was designed by Omar Carraglia in 2008. This wall light is designed as a pure form, serving as a simple yet elegant structure for the light source. By seamlessly incorporating light into the surrounding space, it becomes an integral architectural element, enhancing the overall design and functionality of the environment.

Sol 2 LED Wall Light is a rectangular frame which can be positioned as both an upward and downward light. Sol 2 can be strategically arranged in multiples to produce an aesthetically pleasing display, resulting in a clean ensemble. Available in a matte white colourway, this minimalistic wall light can be featured in both commercial and residential settings.
