PRODUCT DESCRIPTION

Designer: Arne Jacobsen

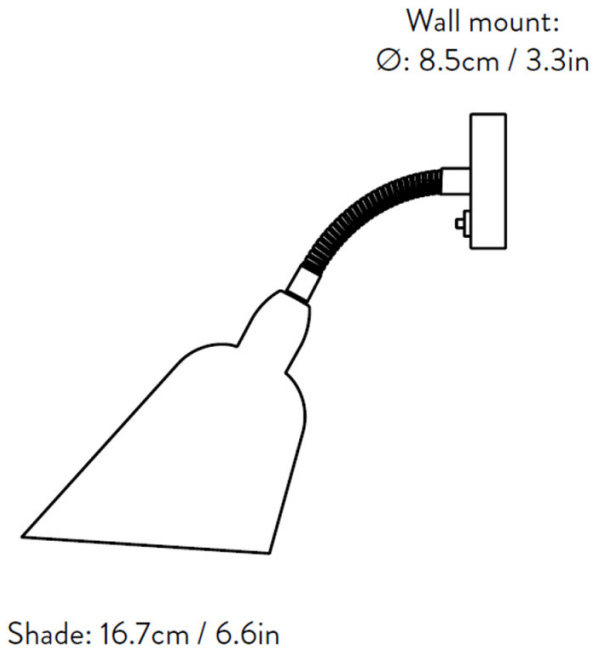

&Tradition Bellevue AJ9 Wall Lamp

The Bellevue AJ9 Wall Lamp is part of &Tradition's reissue of Arne Jacobsen's iconic Bellevue collection. Designed for Jacobsen's 1929 'House of the Future' exhibition, Bellevue combines a classical approach to style with a typically modernist preoccupation with functionality. The result is a wall lamp which is as attractive as it is practical, a unique cut-off shade, spun from a single sheet of metal, attached to the wall by an adjustable stem, a light untarnished by complication.

When illuminated, the AJ9 casts a wide, functional beam of light, ideal for reading, while the adjustable stem allows users to direct the light precisely where needed. This makes the wall light perfect for installation at a bedside, or in an office or sitting room. In commercial spaces, the Bellevue AJ9 creates a comfortable atmosphere and practical lighting in restaurant booths, hotel lobbies, or offices. Display with the **Bellevue AJ7 Floor Lamp** for a sculptural, cohesive composition with a timeless aesthetic.

PRODUCT SPECIFICATION

Light Source:	1 x Max 2.8W E14 (Excluded)
IP Code:	20
Dimming:	Integrated on/off switch on the product.
Dimensions:	Shade: Ø16.7cm Depth: 28cm Width: 16.5cm Height: 30cm Wall Plate: Ø8.5cm Cable Length: 200cm
