&Tradition Bellevue AJ7 Floor Lamp

Recently reissued by &Tradition, the Bellevue AJ7 Floor Lamp is one of Danish master Arne Jacobsen's most iconic designs. Jacobsen originally designed the lamp in 1929 for the 'house of the future' – an exhibition house which presented an aspirational view of the future. Featuring a clean silhouette with graceful lines, the Bellevue AJ7 showcased a shift towards a new school of thought, blending sculptural simplicity with the functionalism of Bauhaus. The sophisticated finishes of Black and Brass, White and Bronzed Brass, and Grey and Bronzed Brass add to the timeless aesthetic that suits a range of interiors.

The Bellevue AJ7 Floor Lamp is ideal for use as a reading light in an office or beside a sofa. The metal shade casts a wide beam of light, while the adjustable stem allows users to direct it precisely where needed. Its sculptural form adds bold presence in any setting, even when not in use. Display with the **Bellevue AJ9 Wall Lamp** for a cohesive theme throughout the home. In commercial environments, the AJ7 blends seamlessly into contemporary office spaces.
