PRODUCT DESCRIPTION

Designer: Verner Panton

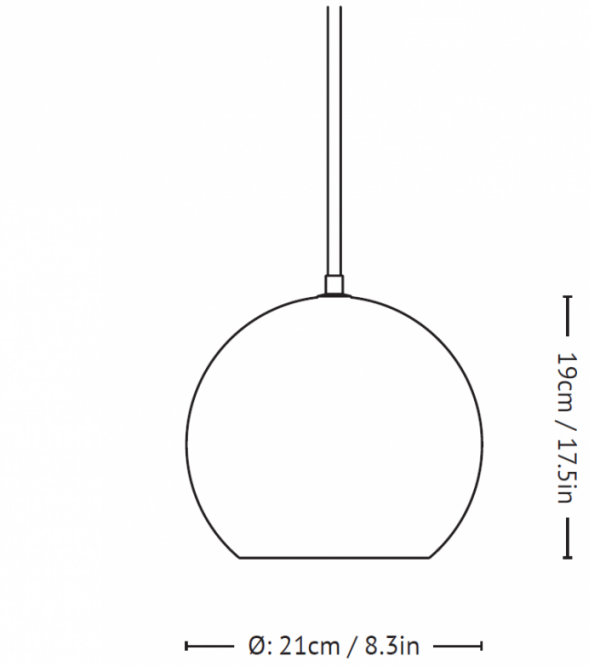

&Tradition Topan VP6 Pendant

The Topan VP6 Pendant was designed in 1960 by legendary Danish architect and designer Verner Panton. It was first installed in the Astoria hotel and restaurant in Trondheim, Norway, and was Panton's second ever design and first mass-produced lamp. The pendant's spherical form is a result of a highly specialised spinning process, performed by craftsmen with decades of experience. The aluminium shade is available in four bold finishes: Matt Black, Vermillion Red, Grey Beige, and Chrome Plated.

When illuminated, the VP6 Pendant casts a wide beam of downward-directed light, perfect for installation above a kitchen island, dining table, or desk. A singular pendant adds a sense of distinction, while a row of pendants creates uniform, focused lighting over long work surfaces. In commercial spaces, the VP6 suits contemporary hotels, studios, and boutiques. Display throughout the home with the **Topan Collection** for a sleek, cohesive theme that will add a touch of luxury.

PRODUCT SPECIFICATION

Light Source:	1 x Max 12W LED E27 (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Ø21cm Height: 19cm Cable Length: 300cm
