PRODUCT DESCRIPTION

Designer: Simon Pengelly

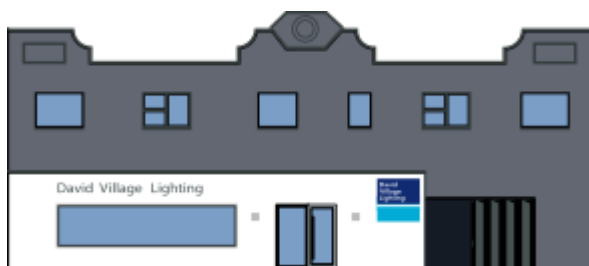

Innerlight Wall Light by Foscarini

The Innerlight wall light resembles a wall sculpture, which once lit comes to life and transforms into an elegant platform for the light. The wall light is made from three overlapping levels which create a graphic presence and stylish aesthetic. The light source is able to reflect and rebound between the three layers and the wall to produce a play between light and shadow.

Intriguing and eye-catching, the Innerlight wall lamp comes in a subtle white finish, to seamlessly fit into any design scheme and setting. This wall lamp is available either as a non-dimmable or dimmable version and is a brilliant choice to illuminate the room and to add dynamic decoration to your interior. Use in homes and commercial settings in lounges, reception areas, corridors, hallways and more!
