## PRODUCT DESCRIPTION

**Designer:** Christian Lava

### Terzani Stream Suspension

Ensuring an impressive presence in any room the Terzani Stream Suspension was designed by Christian Lava for contemporary interiors. This glamourous luminaire features a solid nickel-plated structure that houses over seven kilometres of metal chain that appears to flow down effortlessly. These cascading tiers project a streaking, yet tranquil, shadow throughout the room and even a slight breeze causes them to sway and generate unique playful lighting effects.

The Stream Suspension is guaranteed to be an eye-catching centrepiece, so is an extravagant way to illuminate atriums, hotel lobbies, staircases and large dining areas. Thanks to the diffused illumination, and the ease at which you can control the lighting output through dimming, this luminaire can create a range of atmospheres.

**The Terzani Stream Suspension is also available in a cluster of three pendants, or as a linear suspension. Please contact us for more information and pricing.**
