PRODUCT DESCRIPTION

Designer: Michele De Lucchi & Giancarlo Fassina

Artemide Tolomeo Mega LED Floor Lamp

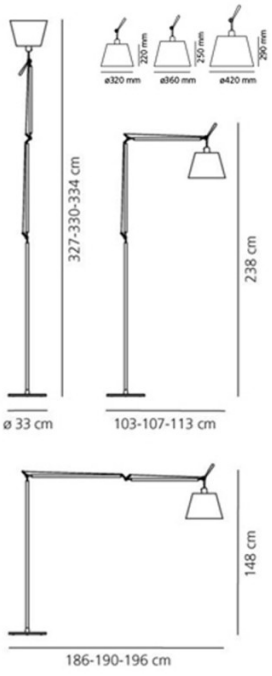

The Tolomeo Mega LED Floor Lamp offers the indistinguishable timeless elegance and impeccable functionality synonymous with the **Tolomeo Collection**. Originally designed by Michele De Lucchi and Giancarlo Fassina in 1987, the Tolomeo features an articulated arm system that, thanks to an innovative spring mechanism, can be easily adjusted in height and tilt to offer precise direct lighting. The Tolomeo Mega Floor Lamp replaced the traditional aluminium head with a balanced diffuser, creating a touch of classic elegance.

The grand size of the Tolomeo Mega LED Floor Lamp creates a bold, architectural presence, even when not in use. When switched on, the fabric shade guides light downward, perfect for illuminating dining tables, desks, or a reading nook. The integrated dimmer allows users to adjust light intensity to switch between task and ambient lighting. In commercial spaces, the Tolomeo Mega LED Floor Lamp suits hospitality settings, creating a comfortable and inviting atmosphere.

Please note, the Artemide Tolomeo Mega LED Floor Lamp is also available with the option to mix-and-match Black or Aluminium bases and a choice of black, silk, or off-white parchment shades across all three sizes. Contact us for pricing and further information.
