PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Kartell Battery LED Portable Lamp

Designed by Ferruccio Laviani, the Kartell Battery Lamp is crafted from recycled PMMA, the latest-generation sustainable material and features a contemporary lampshade that is available in a wide range of finishes. Battery is a portable lamp, boasting a battery life of up to 8 hours and allowing the lamp to be transported to different environments easily.

This lighting solution offers ambient illumination; the colourful shade diffuses the lighting output, resulting in a warm and inviting ambience. The textured shade produces a beautiful play of light that spreads across the wall or surface it is placed upon. For this reason, Kartell Battery is perfect for dining spaces - both residential and commercial. Thanks to the IP54 rating, the Battery can also be used in outdoor settings, perfect for al fresco dining.
