PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

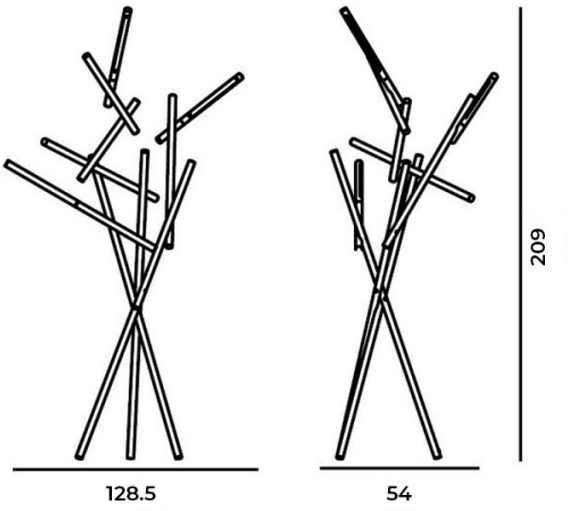

Foscarini Tuareg LED Floor Lamp

The Tuareg floor lamp is a graphic and geometric masterpiece, designed by Ferruccio Laviani in 2013. The floor lamp is inspired by man-made architecture which intrinsically is influenced by nature, with both concepts working simultaneously in this breathtaking and outstanding light. The lamp comprises of three main parts with branches coming off each one to create an expressive and compelling silhouette. An integrated LED light source sits in each three parts with an individual touch dimmer switch for each one so you can choose how much illumination you want and need for the space.

The Tuareg floor light is also adjustable, with each light source being able to rotate 350° to direct the glow where you need it. The floor light is available in three colours, black, orange or white, to find the right finish to match your interior design. Use in many settings, in homes or professional spaces, to have an astounding light that is both functional and eye-catching.
