PRODUCT DESCRIPTION

Designer: Naoto Fukasawa

Artemide Demetra Reading Floor Lamp

Designed by Naoto Fukasawa, the Artemide Demetra Reading Floor Lamp is an addition to the Demetra collection, which was met with great success. Today, the Demetra Collection includes numerous lamps and task lights, floor, table, wall lights and spotlights in different sizes and various finish options. The Demetra Reading light is the perfect companion for your office, bedroom or living room. A light suitable for any modern interior, complementing every space, whether residential, commercial or in hospitality.

Demetra Reading Lamp houses an integrated LED source, making it eco-friendly and highly efficient. The head/diffuser is fully adjustable, allowing for a wide range of movements. You can tilt and rotate the head so that you can direct the light to your preferred position. The arm and body are also adjustable into points along the body, so that you can have direct light exactly where and when you need it. A multi-functional light with various interactive features, including an integrated touch dimmer located on the head, from which light intensity is controlled easily.

The **Demetra Collection** offers a wide range of lights. Explore the collection and choose your own Demetra light for your home, business or office. Fukasawa has also added to the collection the **Demetra Professional** lights, a series of task lights that offer higher illuminance within a minimal product.
