PRODUCT DESCRIPTION

Designer: Omer Arbel

28.3 Cluster Pendant Light by Bocci

A part of the <u>Bocci 28 series</u>, the 28.3 cluster pendant is a stylish and chic light that can be used in a wide variety of settings. The cluster pendant lamp comes with light bulbs included, with the choice between a **LED 1W** bulb which is non-dimmable and a **Xenon 20W** bulb which is dimmable.

The shades are made with clear blown glass that is formed from a special blowing technique which creates the unique and interesting cavities. The light source is also covered by a milk white lamp holder which produces a warm and soft glow. The cluster allows for a far-reaching illumination, being perfect as a main light in smaller spaces or great for bigger rooms when put into rows or larger clusters. The cables can also be adjusted up to a 300cm drop so you can create the right look in your interior.

The 28.3 cluster is also available in a wide range of colours. Please click here to create your own pendant and then forward your customisation to us for a quotation. See the last image on the left to see how to send us your personalised cluster pendant.

Please Note: All Bocci Suspension Lights come with a white ceiling canopy as standard. Other finishes are available, please contact us for more information and pricing.
