PRODUCT DESCRIPTION

Designer: Ludovica & Roberto Palomba

Foscarini Gregg Cluster Pendant Light

The Gregg Cluster brings all the benefits and beauty of the **Gregg Pendant Light**, now in a lovely cluster to have as a wondrous feature luminaire. Elegant and stylish this pendant cluster is part of the **Foscarini Gregg Collection**, a range designed by Ludovica + Roberto Palomba. The lampshades are made from glass, creating a warm and soft illumination that makes a big impact on this scale.

The Gregg cluster pendant light is characterised by its organic and nature-inspired shades, that look like stunning bubbles or pebbles hanging high from the ceiling. This design allows you to completely personalise a chandelier, allowing you to choose your canopy and then the number of suspended luminaires that you require. This cluster is suitable for both domestic and commercial settings and will look best in rooms with high ceilings.

The canopies can harness a maximum of 9 Mini Greggs, 6 Small Greggs, and 5 Medium or Large Greggs.

This pendant cluster is available with a variety of round or linear ceiling canopies to create the cluster effect. Please contact us for more information and to purchase.
