PRODUCT DESCRIPTION

Designer: Herzog & De Meuron

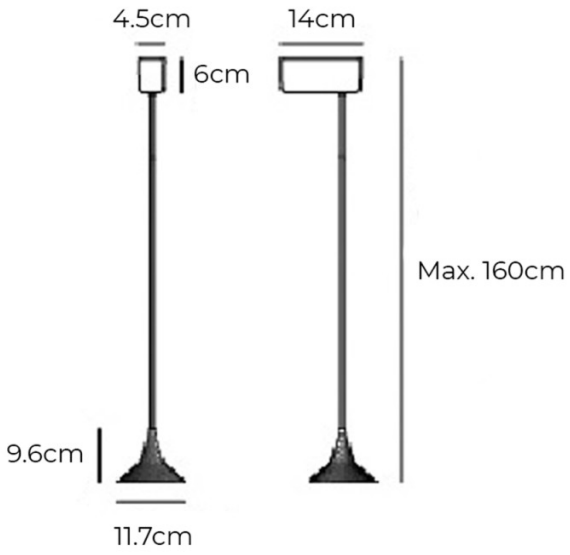

Artemide Unterlinden Pendant

Originally designed for the Unterlinden Museum in Colmar, France, the Artemide Unterlinden Pendant Light bears the signature of Herzog & De Meuron. It represents the amalgamation of technological innovation and the aesthetics of a classic piece. While the silhouette boasts a classic minimalistic form, the luminaire houses a high-performance LED COB to ensure the highest quality of light and energy efficiency. Choose between an antique aluminium or antique brass finish, both of which host a unique texture and add character to your space.

A sleek downlight with a discreet yet stylish shade, the Artemide Unterlinden Pendant produces a glare-free and focused illumination that is suitable for any setting, whether residential or professional. The pendant is especially noticeable when installed in clusters from high ceiling spaces, creating an eye-catching statement piece.
