PRODUCT DESCRIPTION

Designer: Christophe Mathieu

Bover Slend Pendant Light

Another contemporary design by Christophe Mathieu, the Slend Pendant Light provides a subtle but powerful lighting solution, which looks beautiful hung individually or grouped together to form a cluster. The luminaire is crafted from aluminium and boasts a slender body, which is available in three different shapes. The Slend Pendants offer a wide variety of combinations, granting you the ability to play with both the shape and the height of your installation. Looking for another touch of personalisation? Slend pendants are also available in a choice of colour.

The Bover Slend Pendant produces a direct downlight, perfect for illuminating the most important areas in your environment. Although a gorgeous addition to residential homes, Slend makes a larger impact in public commercial spaces. Display above dining tables in restaurants, café counters or even over shopping checkouts.

Also available as a cluster of 3 or 6. [Contact Us](#) for more details and pricing.
