PRODUCT DESCRIPTION

Designer: Mattias Ståhlbom

Zero Last Floor Lamp

Designed by Mattias Ståhlbom, the Zero Last Floor Lamp is a functional yet striking piece that balances industrial simplicity with sculptural appeal. Its distinctive, adjustable aluminium shade allows the light to be directed as needed, making it ideal for highlighting artworks, illuminating corners, or creating ambient lighting effects against a wall. The bold, geometric form stands confidently in a space, while the directional nature of the light enhances its practical use.

The lamp is available in a painted black finish, with alternative colours available on request. It features a 2.5-metre cable with an inline switch and plug for flexible placement. The integrated aluminium reflector helps focus and soften the light, making it suitable for both residential and commercial interiors where targeted illumination is required.

Please note, a dimming accessory is available for this product. Contact us for more details and pricing.
