PRODUCT DESCRIPTION

Designer: Joel Degermark

Moooi Cluster Lamp Pendant

The Moooi Cluster Lamp was created by product designer Joel Degermark. Degermark is fascinated by the art of playful exaggerations, often focusing on excessive colour and bold designs to produce unique pieces that exude personality. This philosophy is reflected in the Cluster lamp, which is a fun eye-catcher that allows you to create a truly unique lamp.

The Cluster Lamp comes without light sources, giving you the opportunity to get creative with the bulbs you wish to use. The endless possibility of bulb combinations means you can create a pendant that reflects your personality and perfectly suits your home. The matt white frame can hold five bulbs (3 x E27 and 2 X E14). With an opportunity to create an eye-catching display, the Cluster Lamp is ideally placed in a living room to add a captivating focal point to the room. In commercial spaces, the Cluster Pendant is well-suited to hospitality settings such as bright and vibrant cafes.
