Secto 4201 Pendant Light

The Secto 4201 pendant light is a scaled-down version of the original **4200** design, tailored for spaces with lower ceilings or limited room. Despite its smaller size, the 4201 maintains the iconic Secto craftsmanship, with slatted birch construction that casts a soft, warm glow ideal for intimate settings. Handmade in Finland using PEFC-certified materials, it exemplifies the brand's dedication to sustainability and quality.

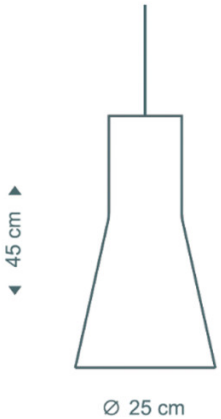

The pendant is available in four beautiful finishes: natural birch, laminated black or white, and walnut veneer. Each finish is paired with either a black or white textile cable and canopy, allowing it to seamlessly blend with different interior styles. The smaller scale makes it perfect for breakfast bars, dining tables, or even in rows and clusters for a statement look.

Whether used singularly or in multiples, the Secto 4201 pendant light is a timeless piece that complements the rest of the Secto Design collection. It offers a stylish and functional lighting solution for compact spaces without compromising on elegance or impact.

Please Note: The Secto 4201 Pendant in Birch, White and Walnut is supplied with a white textile cable and ceiling cup as standard, while the Black finish is supplied with a black cable and ceiling cup. Alternative cable and ceiling cup colours may be available on request. Please contact us for further information.
