Secto Victo 4250 Pendant Light

The Secto Victo 4250 pendant light is a striking example of Scandinavian design, blending elegance and functionality. Handmade from PEFC-certified Finnish birch, the light features a slatted diffuser that casts a soft, inviting glow, creating a cosy and comfortable atmosphere. Its airy construction ensures that, despite its size, the pendant remains unobtrusive and light, making it an excellent choice for both small and spacious interiors.

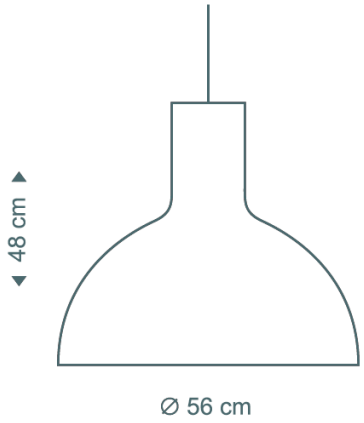

This pendant is particularly suited for dining areas and open-plan spaces, where its wide diameter offers even light distribution. Available in four stunning finishes, natural birch, black or white lamination, and walnut veneer, the Victo 4250 provides versatility, blending seamlessly with both modern and traditional decor styles. The light comes with a 150 cm textile cable, and additional lengths can be requested, ensuring adaptability to various ceiling heights.

For those seeking a cohesive lighting scheme, the **Secto** range also includes the **Victo Small 4251** and other complementary designs such as wall lights, floor lamps, and table lamps. Explore the full Secto collection here to discover more ways to enhance your space with Scandinavian craftsmanship.

Please Note: The Secto Victo 4250 Pendant in Birch, White and Walnut is supplied with a white textile cable and ceiling cup as standard, while the Black finish is supplied with a black cable and ceiling cup. Longer cable lengths are available on request at an additional cost. The pendant can also be connected to a DALI lighting system using a separate compatible DALI dimmer, which is not supplied by Secto. Please contact us for further information.
