Secto 4200 Pendant Light

The Secto 4200 pendant light is the original design that started the Secto Design collection, embodying classic Scandinavian craftsmanship and innovation. Its slatted construction produces a soft, atmospheric glow, making it ideal for cosy living spaces, dining areas, and bedrooms. Handmade from PEFC-certified Finnish birch, the 4200 pendant is a perfect blend of timeless design and sustainable materials.

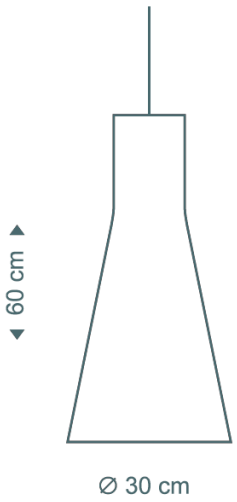

Available in four stunning finishes- natural birch, black or white lamination, and walnut veneer- the Secto 4200 pendant suits a wide range of interiors. The natural birch, walnut, and white finishes include a white textile cable and canopy, while the black finish features a matching black cable and canopy for a seamless look.

Perfect as a standalone feature or paired with other **Secto lighting designs**, the 4200 pendant offers a classic yet modern lighting solution. Its compact yet impactful design ensures it is suitable for any room, whether used singularly or in a cluster.

Please Note: The Secto 4200 Pendant in Walnut, Birch and White is supplied with a white cable and ceiling canopy as standard. A black version is available at no extra cost. Please contact us for more information and quotations.
