Secto Magnum 4202 Pendant Light

The Secto Magnum 4202 pendant light is a bold lighting solution designed for expansive spaces. Initially created for public and commercial settings, this pendant has found a place in residential interiors, particularly in rooms with high ceilings. Its airy, open design ensures that its monumental size doesn't overwhelm, instead bringing warmth and elegance to any space.

Handcrafted in Finland from PEFC-certified form-pressed birch, the Magnum 4202 pendant light is available in natural birch, black or white lamination, or walnut veneer. The design includes three steel support wires and an adjustable cable, making it perfect for both professional and personal environments. Its soft, warm illumination creates a welcoming ambience, ideal for lobbies, dining areas, and living rooms.

Please Note: The Secto Magnum 4202 Pendant is supplied with a non-dimmable LED bulb. Dimming is possible when using a compatible dimmable E27 LED bulb and suitable dimmer.

Please Note: The Secto Magnum 4202 Pendant in Birch, White and Walnut is supplied with a white cable and ceiling cup as standard, while the Black finish is supplied with a black cable and ceiling cup. Alternative cable and ceiling cup colours may be available on request. The included LED bulb is non-dimmable, although the fitting can be dimmed with a compatible dimmable LED bulb and suitable dimmer. Please contact us for further information.
