PRODUCT DESCRIPTION

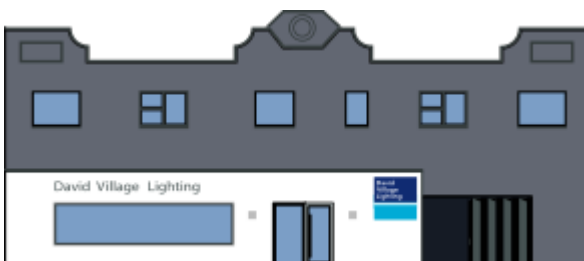

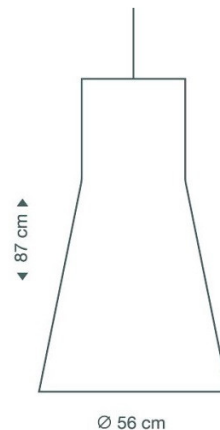

Secto Magnum 4202 Pendant Light

Originally designed for commercial and public spaces, the Secto Magnum 4202 pendant light is now also available for residential spaces, and suits those with large open spaces with a high ceiling height. Handmade in Finland from PEFC-certified form-pressed birch, the Magnum 4202 pendant light doesn't overwhelm spaces with its size, due to its airy design.

Providing soft and warm luminescence, the Secto Magnum 4202 pendant light is available in its natural birch state, laminated in black or white or with a walnut veneer. The cable length for the 4202 comes at 200cm standard, however longer lengths are available on request. The 4200 collection also includes wall lights, floor lights and table lamps - browse the rest of Secto's designs [here](#).
