PRODUCT DESCRIPTION

Designer: Ramos & Bassols

Flex LED Table Lamp by Vibia

Designed by Ramos & Bassols, the Flex table light is the ultimate work and reading companion, designed with functionality and flexibility in mind. The table lamp can move up and down, with a sleek metal body that looks modern and contemporary. The shade has a slimline silhouette which casts an effective glow that can be **dimmed with an optical sensor located on the top.**

Available in a graphite or white colour, you can also choose between a matt or glossy finish to choose the right look for your space. The Flex table lamp can rotate at the base and has a movable arm and shade so you can direct the light exactly where you need. With integrated LED technology, the table light also lasts long and will not dazzle when working.
