PRODUCT DESCRIPTION

Designer: Ramos & Bassols

Vibia Up Round LED Ceiling Light

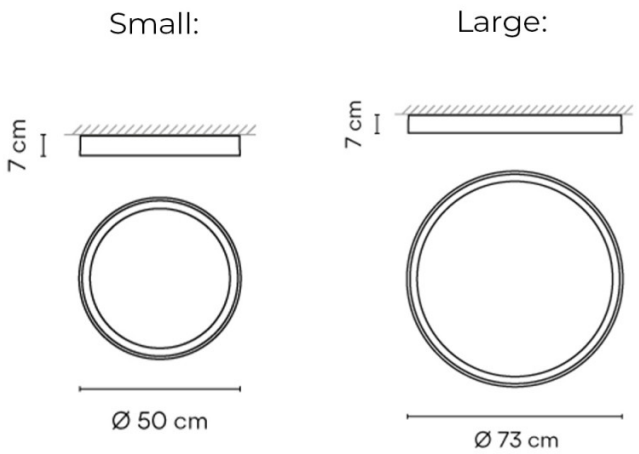

The Vibia Up Round LED Ceiling Light was designed by Ramos & Bassols and features a refined circular structure. With an aluminium frame which houses a polycarbonate diffuser, the Vibia Up creates a warm even dispersion of light onto the space below. Ramos & Bassols took inspiration from neo-classical domestic architecture, which resulted in a minimalistic lighting solution that is crafted from high-quality materials and takes up little room.

Especially good for spaces with low ceilings, the Vibia Up Round LED Ceiling Light is available in two sizes, two finishes and creates a wide illumination. Display this ceiling light in kitchens, hallways, living rooms, and entryways. They can be displayed individually or in larger groups, you can even combine sizes to create a playful installation.

This pendant can also be supplied with a colour temperature of 4000K upon request. Please contact us for more information and pricing.
