PRODUCT DESCRIPTION

Designer: Ramos & Bassols

Vibia Up Square LED Ceiling Light

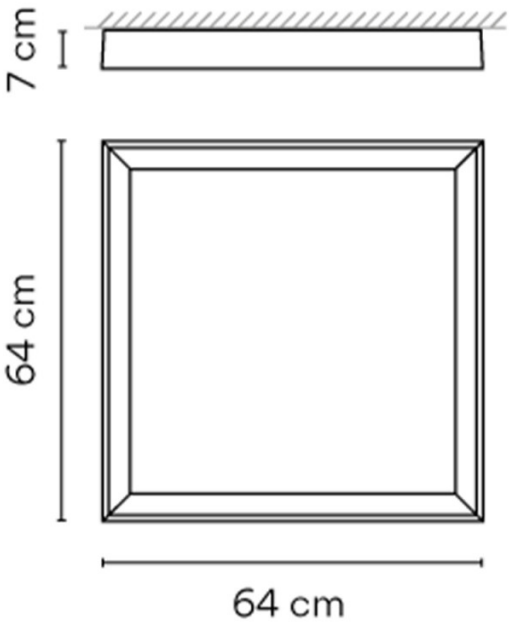

The Vibia Up Square Ceiling Light is a unique and minimalistic light by Ramos & Bassols that utilises a new flat diffusion LED system. The Up Square Ceiling Light is characterised by its slender 7cm-high structure, taking up little room and providing a perfect functional lighting solution for spaces with low ceilings.

Thanks to the polycarbonate diffuser, which is held in place by an aluminium structure, this ceiling light emits a warm and glare-free glow that remains functional whilst also creating an inviting atmosphere. A sharper version of the Up Round Ceiling Light, the Up Square came from Ramos & Bassols interest in neo-classical domestic architecture. This light is a bold addition to hallways, corridors, kitchens and entryways.

This pendant can also be supplied with a colour temperature of 4000K upon request. Please contact us for more information and pricing.
