PRODUCT DESCRIPTION

Designer: Ramos & Bassols

Vibia Up Double LED Ceiling Light

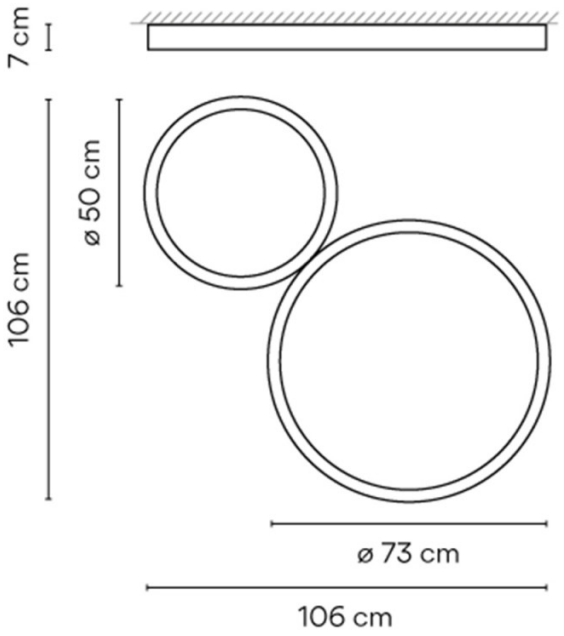

Designed by Ramos & Bassols, the Vibia Up Double LED Ceiling Light consists of an aluminium frame and polycarbonate diffuser that projects a warm illumination. It is ideal for rooms with low ceilings due to its 7cm depth and can add a touch of contemporary elegance to your space. The inspiration behind the Vibia Up Double Ceiling came from neo-classical domestic architecture and is available in two neutral finishes (Black Grey or Grey).

Able to adapt to a wide range of modern interiors, the Vibia Up boasts a large surface area and therefore provides ample illumination. It is a great addition to living spaces, hallways, bedrooms or entryways as well as commercial spaces such as restaurants, cafes, bars or hotels.

This pendant can also be supplied with a colour temperature of 4000K upon request. Please contact us for more information and pricing.
