PRODUCT DESCRIPTION

Designer: Jordi Vilardell

Vibia Suite 6041 Wall Light

The Suite 6041 LED Wall Light was designed by Jordi Vilardell for Vibia and takes a multifunctional approach to design. The unique wall light acts as both a luminaire and a shelving unit, allowing the user to store things on top of the model whilst also brightening up the room. The shelf houses the organically shaped glass diffuser that is fitted with an LED light source, the glass projects the illumination evenly across the space whilst preventing any glare.

This LED Wall Light is a combination of the **Suite 6050** and **Suite 6035** lights, the elegant design is available in either a White or Chocolate Brown finish and can adapt to a variety of contemporary interiors. The Suite 6041 Wall Light is the definition of modern minimalism, a perfect addition to bedrooms, kitchens, living spaces and even home offices.
