PRODUCT DESCRIPTION

Designer: Jordi Vilardell

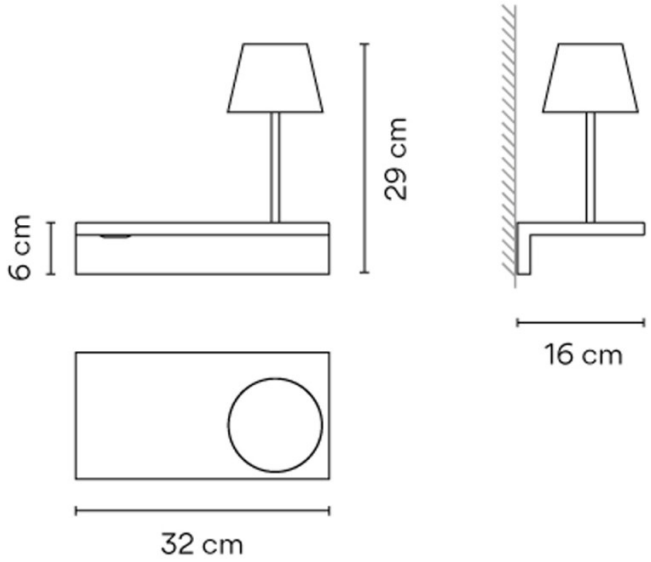

Vibia Suite 6046 Wall Light

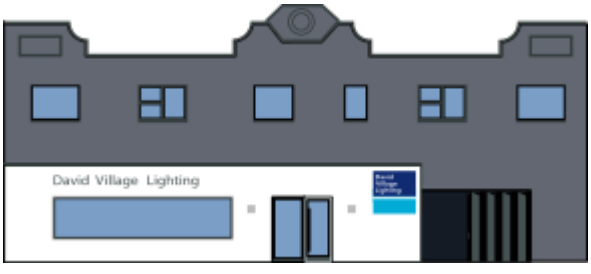

Designed by Jordi Vilardell, the Vibia Suite 6046 LED Wall Light boasts numerous functions, where matter and light are integrated into a single body. This wall light utilises not only a light source but also a shelving unit for storage. Contemporary minimalism meets innovative lighting technology in Suite 6046, an LED light source is fitted within the shade which acts as a functional reading lamp, as well as an LED strip that sits underneath the shelf and produces an ambient glow that is cast upon the wall below.

The Vibia Suite 6046 Wall Light is available in two neutral finishes (either a White or Chocolate Brown) and can blend into almost any interior both classic and contemporary. It is a beautiful addition to a range of rooms in your house including your living space, reading nook or bedroom.
