PRODUCT DESCRIPTION

Designer: Ramos & Bassols

Vibia Micro LED Wall Light

Designed by Ramos & Bassols, the Micro Wall Light is a subtle and minimalist light that emulates a solar eclipse. The wall lamp features an LED light source which sits behind the front diffuser and so is concealed and reflects light off the structure. With just a 10cm wide diffuser, the Micro lives up to its name, being a handy and versatile wall light, perfect for a wide variety of settings.

The Micro wall lamp was made to be used in interiors and exteriors, and can also be used in wet environments such as bathrooms for needed illumination. The LED wall light is wonderful for use in multiple, looking stylish in rows or clusters and is available in either a white or oxide finish so you can find the right colour for your space.
