PRODUCT DESCRIPTION

Designer: Neil Poulton

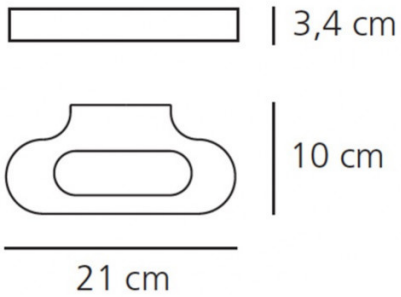

Artemide Talo LED Wall Light

The Artemide Talo Wall Light, designed by Neil Poulton, embodies a precise balance of minimalism and technical refinement. Its slender, geometric form allows it to sit quietly within a space while still expressing a distinctly architectural character. The design draws from a philosophy of reduction, resulting in a clutter-free fixture that feels both contemporary and enduring. Its understated presence makes it highly versatile, integrating effortlessly into a variety of interior styles without visual clutter.

Created for both performance and comfort, the Talo Wall Light emits light in two directions, casting a soft, even glow both upward and downward. This dual distribution produced by the integrated LED light source creates a sense of depth while minimising glare, for a balanced and inviting atmosphere. Available in four finishes and two colour temperatures (2700K or 3000K), the Talo Wall Light blends seamlessly into contemporary spaces where wall washing and indirect light are desired.

PRODUCT SPECIFICATION

Light Source:	20W, 2700K, 1674 Lumens or 20W, 3000K, 1991 Lumens
