PRODUCT DESCRIPTION

Designer: Carlotta de Bevilacqua and Paola di Arianello

Artemide Empatia LED Wall/Ceiling Light

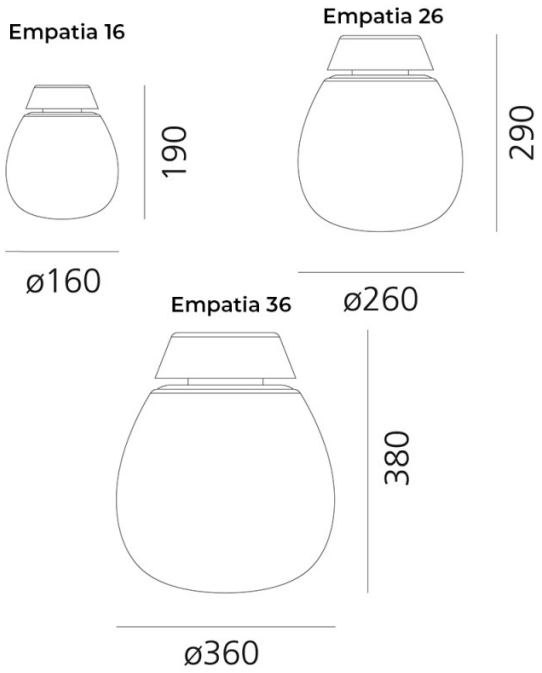

Artemide Empatia LED Wall/Ceiling Light combines blown glass with Artemide LED technology, developed through co-operation with master glass blowers to control the special suppleness of Venetian glass and the balance between surface and light. The result is a clear, pure craft object, shaped through subtle densities and transparencies.

The glass reflects light without glaring and without losing efficiency, with transparency and opacity carefully dosed across the diffuser. At its centre is a high-performance LED light engine, created separately from the glass emission body for higher thermal efficiency and performance, with light guided through a transparent pipe with a very low absorption coefficient.

Artemide Empatia LED Wall/Ceiling Light is available in three sizes in white, with a blown glass diffuser and methacrylate and aluminium structure. It uses an integrated 3000K LED with CRI 90, and the 26 and 36 sizes are dimmable via push to make dimming systems.

PRODUCT SPECIFICATION

Light Source:	**Empatia 16:** 11W, 3000K, 567 Lumens **Empatia 26:** 16W, 3000K, 710 Lumens **Empatia 36:** 24W, 3000K, 1273 Lumens
IP Code:	20
Dimming:	**Empatia 16:** Non-dimmable. **Empatia 26 & 36:** Dimmable via Push to make/switch dimming systems. Please consult your electrician, additional wiring may be required on site.
Dimensions:	**Empatia 16:** Height: 19.1cm Shade: Ø16cm **Empatia 26:** Height: 29cm Shade: Ø26cm **Empatia 36:** Height: 38.2cm Shade: Ø36cm
