Artemide Empatia LED Table Lamp

Artemide Empatia LED Table Lamp is a study in the relationship between Venetian glass and light, developed from Artemide's work with master glass blowers to explore the expression potential of the material. Surface and light are balanced through subtle densities and transparencies, and each diffuser remains unique in all respects.

The diffuser reflects light without glare and without loss of efficiency, while the optical device is separated from the glass emission body in favour of higher thermal efficiency and performance. A high-performance LED light engine sends light towards the glass through a transparent pipe with a very low absorption coefficient.

Artemide Empatia LED Table Lamp comes in three sizes in a white finish, combining blown glass with methacrylate and aluminium and using an integrated 3000K LED with CRI 90. The 16 size features a microswitch dimmer, while the 26 and 36 sizes use a touch dimmer on the product.

PRODUCT SPECIFICATION

Light Source: **Empatia 16:** 11W, 3000K, 567 Lumens
Empatia 26: 20W, 3000K, 710 Lumens
Empatia 36: 26W, 3000K, 1273 Lumens

IP Code: 20

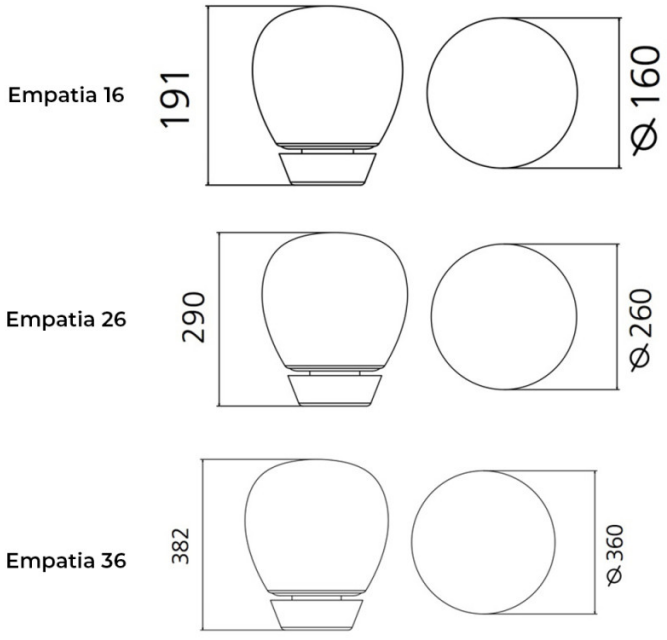

Dimming: In-line dimmer included on cable.

Dimensions:

Empatia 16:
Height: 19.1cm
Shade: Ø16cm

Empatia 26:
Height: 29cm
Shade: Ø26cm

Empatia 36:
Height: 38.2cm
Shade: Ø36cm
