Artemide Empatia LED Pendant Light

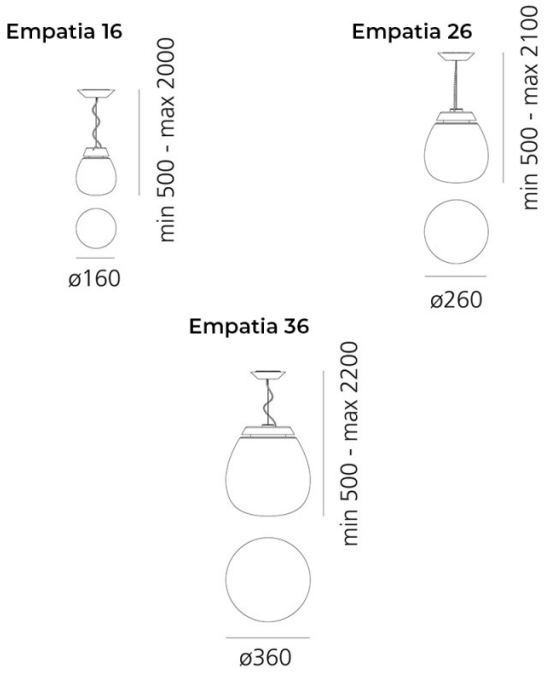

Artemide Empatia LED Pendant Light is inspired by the association between the great glass-blowing tradition and the LED technology of Artemide. Developed in co-operation with master glass blowers, it works with the special suppleness of Venetian glass to define the balance between surface and light, between transparency and density.

Transparency and opacity are wisely dosed to obtain a glass that reflects light without glaring and without losing efficiency. The heart of the fitting is a high-performance LED light engine, created separately from the glass emission body in favour of higher thermal efficiency and performance, with light driven towards the diffuser through a transparent pipe with a very low absorption coefficient.

Artemide Empatia LED Pendant Light is available in three sizes in white and combines blown glass with methacrylate and aluminium. It uses an integrated 3000K LED with CRI 90, and the 26 and 36 sizes are dimmable via push to make dimming systems.

PRODUCT SPECIFICATION

Light Source:	**Empatia 16:** 11W, 3000K, 567 Lumens **Empatia 26:** 16W, 3000K, 710 Lumens **Empatia 36:** 24W, 3000K, 1273 Lumens
IP Code:	20
Dimming:	**Empatia 16:** Non-dimmable. **Empatia 26 & 36:** Dimmable via Push to make/switch dimming systems. Please consult your electrician, additional wiring may be required on site.
Dimensions:	**Empatia 16:** Height: 19cm Shade: Ø16cm Cable Length: 200cm **Empatia 26:** Height: 29cm Shade: Ø26cm Cable Length: 200cm **Empatia 36:** Height: 19cm Shade: Ø36cm Cable Length: 210cm
