PRODUCT DESCRIPTION

Designer: Eugeni Quitllet

Kartell Light Air Table Lamp

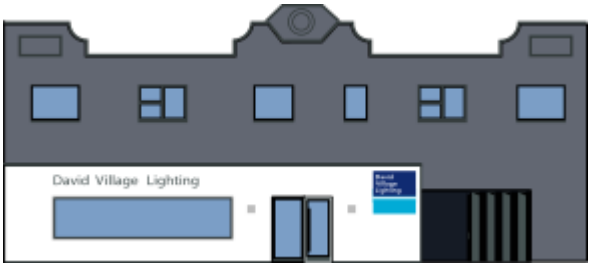

A 2013 design that met great success and was designed by Eugeni Quitllet for Kartell. The Light Air Table Lamp is an essential, contemporary designer light. Eugeni designed the table lamp using two pieces of polymethacrylate, the most transparent plastic available, used for car headlights. The lampshade itself is a conically shaped parabola that diffuses the light downwards as well as within the structure and creates a cosy pocket of light.

The Kartell Light Air Table Lamp is available with a sculptured, crystal-like lampshade in 5 colours, or you can select the soft fabric version, with a pleated effect in beige, blue or pink. Both versions make excellent accent lighting in living rooms, bedrooms and dining areas. Light Air is also a great way to curate a cosy ambience in commercial settings, such as in hotels, bars and restaurants.

PRODUCT SPECIFICATION

Light Source:	1 x Max 5W E14 LED (Included)
IP Code:	20
Dimming:	Non-Dimmable.
