PRODUCT DESCRIPTION

Designer: Alex Fernández Camps & Gonzalo Milá

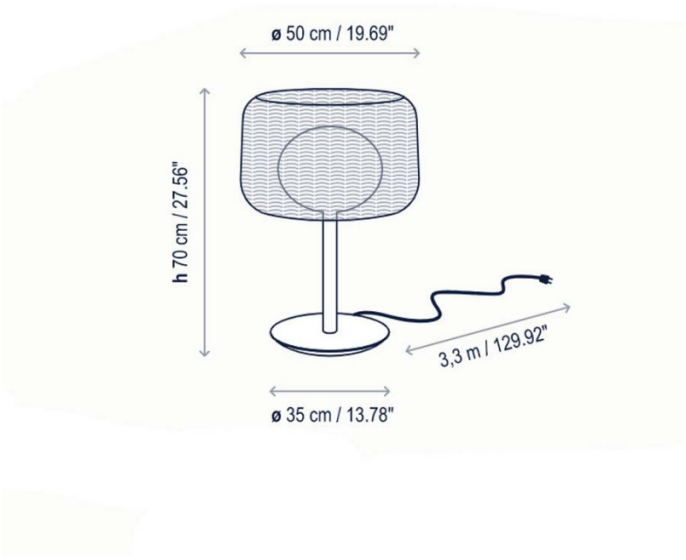

Bover Fora Table Lamp

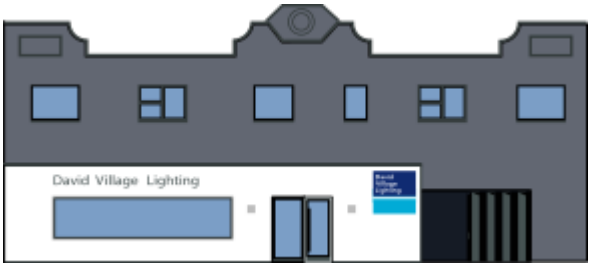

The Bover Fora Table Lamp is perfect for use in both indoor and outdoor settings thanks to its IP66 certification, the shade is crafted from a UV stable polypropylene material using the traditional wicker method. Inside the natural shade is an opal white spherical diffuser, made with U.?V.? protected polythene, which guarantees a water tight electrical fixture.

Designed by Alex Fernández Camps & Gonzalo Milá in 2010, the Fora Table Lamp combines natural materials with rustic shapes, making it perfect for a range of décor styles. Thanks to the rounded diffuser, the Fora Table Lamp emits a soft but functional illumination. Fora makes a beautiful addition to your balcony, patio or exterior dining area. Similarly it can still have a large impact in indoor settings, such as next to your sofa, in hallways or in the bedroom.
