PRODUCT DESCRIPTION

Designer: Alex Fernández Camps & Gonzalo Milá

Fora S Pendant Light by Bover

The Bover Fora S Pendant Light was designed by Alex Fernández Camps & Gonzalo Milá in 2010, combining natural materials and rustic shapes. The lampshade is woven using the traditional wicker technique, utilising natural materials and successfully incorporating Mediterranean style. The Fora S Pendant is made for the outdoors with an IP66 certification and a polyethylene globe which protects the light source. This globe also diffuses the light, creating a soft glow. This outdoor pendant is an exceptional option for mood lighting.

The Bover Fora S Pendant can be used for many exterior areas that have an overhead structure and could even be enjoyed indoors due to its stylish and unique aesthetic. Use singularly or in rows or clusters to achieve the effect you want, and choose between 2 colours to have the right finish you need to match your interior or exterior.
