PRODUCT DESCRIPTION

Designer: Bertjan Pot

Moooi Prop Light Double Horizontal Suspension

Bertjan Pot designed the Prop Double Horizontal Suspension for the Dutch Lighting brand, Moooi. The name ‘Prop’ comes from props used in films and plays, referring to the light’s theatrical and eccentric aesthetic. The cylindrical frame features a total of 36 LED units that look like traditional light bulbs. This carefully considered design choice creates the appearance of incandescent bulbs while being a sustainable alternative.

The Prop Double Horizontal Suspension creates a bright and even light that fills the room. This functional lighting makes it ideal for use above a kitchen island, desk, or coffee table. Bertjan Pot created the Prop to be as versatile as possible to fit into a wide range of interiors, in spaces with both low and high ceilings. As well as domestic use, the Prop Suspension is perfect for adding a warm and inviting atmosphere to hospitality settings. Display with other pieces from the **Prop Collection** for an extravagant display that is bound to leave a lasting impression.

PRODUCT SPECIFICATION

Light Source: 21W, 2700K, 1600 Lumens

IP Code: 20

Dimming: Dimmable using trailing edge dimming.

Dimensions: Length: 98cm
Height: 18cm
