PRODUCT DESCRIPTION

Designer: Michael Anastassiades

Flos IC Ceiling and Wall Light

The Flos IC Ceiling/Wall Light is available as the smaller C/W1 and the larger C/W2, both utilising slender geometric silhouettes. The Flos IC Wall and Ceiling Light was designed by Michael Anastassiades and plays with the idea of shape and balance. The minimalistic lighting solution consists of a glossy glass sphere which appears to balance on a metal rod, providing a soft and diffused light. Both sizes are available in a choice of four finishes, brass, black, or chrome and are suitable for either ceiling or wall mounting.

The Flos IC Ceiling/Wall Light has a discrete and perhaps even subtle design, but when lit, it becomes the centre of attention. Perfect for many settings, use in both the home and professional interiors to create a warming and inviting glow. This fitting is perfect for hallways, kitchens, living rooms and home offices.

A compatible Flos bulb can be purchased separately. Please check individual bulb pages for product compatibility.
