PRODUCT DESCRIPTION

Designer: Arik Levy

Vibia Wireflow 0345 Pendant

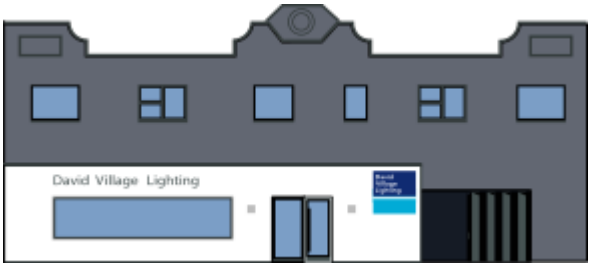

Designed by Arik Levy for Vibia, the Wireflow 0345 Pendant is the smallest in the range. Featuring only one light source, this LED pendant can be displayed individually or in clusters for larger spaces. The canopy can be installed on either a wall or ceiling and the cable can be directed as you wish to create a unique configuration, the Vibia Wireflow Freeform Pendant is one of the brand's most versatile releases.

The integrated LED light source is concealed within a pressed glass diffuser that ensures the downlight remains functional whilst avoiding any glare or discomfort. This singular pendant is a beautiful addition to above dining tables, kitchen islands, countertops, side tables and even bedside tables. The light source can also be easily dimmed to personalise the ambience of your room.
