Prandina Gong Mini LED Pendant Light

SOURCE: <https://www.davidvillagelighting.co.uk/product/prandina-gong-mini-led-pendant-light/14802>

PRODUCT DESCRIPTION

Designer: Sergio Prandina

Gong Mini LED S1 Pendant by Prandina

An LED version of Prandina's Gong Mini pendant, an update to their original [Gong pendant](#) designed to allow maximum control over the shape and size of your lighting scheme.

A single pendant can be used as a smaller alternative to the original Gong, with the option of either a standard ceiling rose, mini canopy, or lateral cable system to connect it to the ceiling, but the Gong Mini really comes into its own when used as part of a multi-light installation. A number of radial, linear, and cascading compositions are available, either with three, five, seven, or nine lights and a round or square ceiling rose, or with between two and five lights and a lateral cable system. The integrated LED light source creates a relaxing ambience which is well-suited to any seating, dining, or waiting area in both residential and commercial environments.

Single-light variants are available for purchase above; please [contact us](#) for details and prices of multi-light variants. A [non-LED version](#) is also available, in addition to a [table lamp](#), and [wall light](#).
